BRONCHOGENIC CYST PRESENTING AS A LARGE UNILOCLAR LEFT ATRIUM MASS

SADEGHPOUR A.*,MALEKI M.,NOUHI F.,OJAGHI S.Z.,ESMAEILZADEH M.,SAFAEI A.,HOSSEINI SAEID

* Vali-Asr Tehran, Iran

We describe a rare case of LA mass in a 46-year-old man presenting to our service for the evaluation of echocardiography. Echocardiography revealed a unilocular encapsulated large mass that was completely embedded in the LA. histological findings confirmed the diagnosis of a bronchogenic cyst (Iranian Heart Journal 2002, 2003; 3(
